

Features

- General control with key-locked switch
- Protected with high sensitivity T.M.C.B. and emergency pushbutton
- 4mm safety socket for connection
- Power supply cable with three-phase plug

Specifications

- AC thermal-magnetic circuit breaker: 4P/16A/400V/30mA
- Three-phase AC output: 400V/10A+N and PE
- AC outlet: 230V/10A (2 universal single-phase sockets)
- Power supply: 3×400VAC/N/PE/50Hz (or other voltages upon request)
- Dimensions(W×H×D): 400×170×200mm
- Weight: 5kg
