

Intelligent Soldering Station

Exquisite workmanship and durability

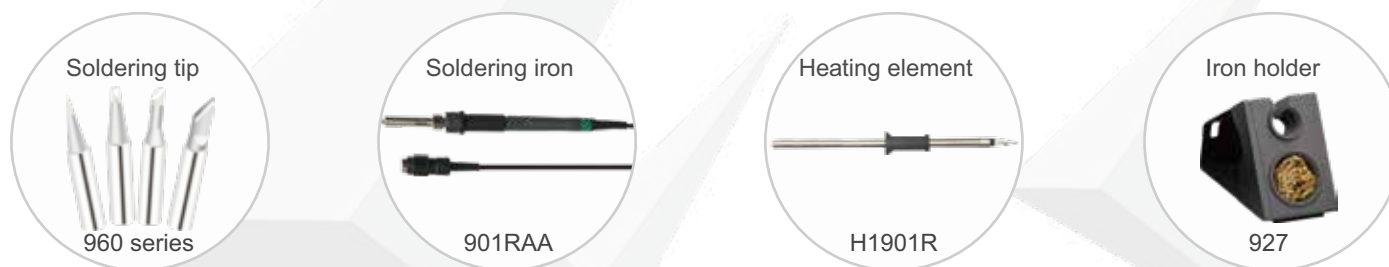

QUICK / 969 Series

▼ Features

- Compact design, save space.
- Upgraded power up to 70W, make soldering easier.
- Metal heating element, sturdy and durable, split design, low cost of consumables.
- Use high temperature resistant silicone cable and accessories.
- Adopt metal iron holder with cleaning , no damage to the soldering tip.
- ★ 969A+: Hidden temperature adjustment knob, prevent accidental touch to change the temperature setting.
- ★ 969B+: LED display, three-channel temperature storage, password control, digital temperature calibration.
- ★ 969D+: LCD display, temperature memory, password lock temperature, digital temperature calibration.

▼ Specifications

Model	969A+	969B+	969D+
Power		70W (Max)	
Display type	Scale indication	LED	LCD
Operating voltage		220V AC	
Temperature range	200°C ~ 450°C		100°C ~ 480°C
Temperature stability		±2°C (Still air without load)	
Ambient temperature		0~40°C	
Tip-to-Ground potential		<2mV	
Tip-to-Ground resistance		<2Ω	
Outer dimensions		87*140*118.7mm	
Weight		About 1.7 Kg
